

Advanced Tactical Training and
Communications Search and Rescue

**Welcome to a look over the past
few years.**

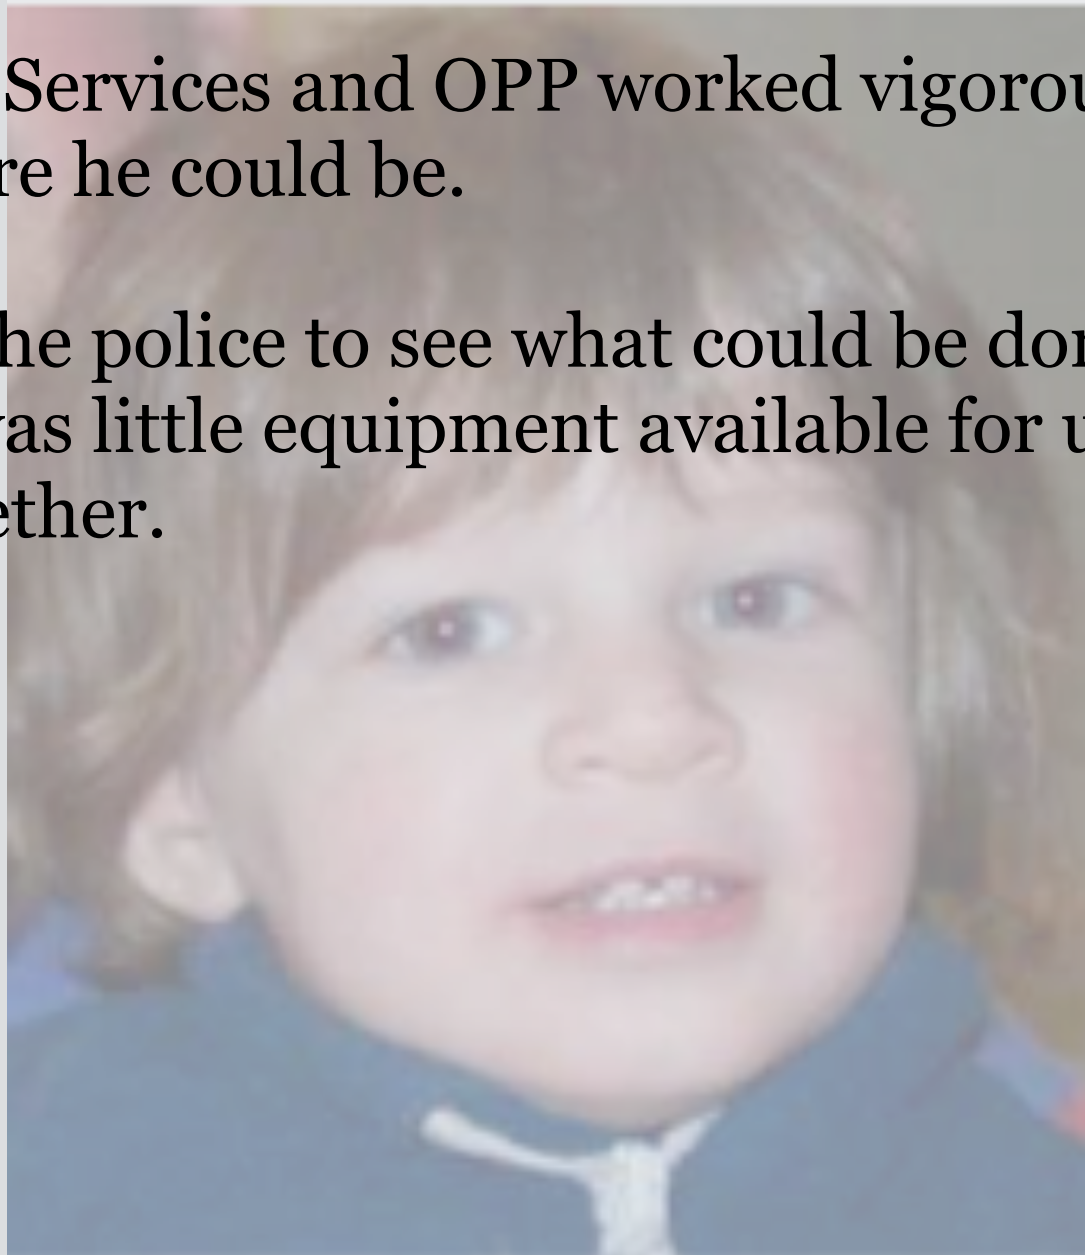

Where we started

On 26th December 2013 Robbie Reiner fell in the Nith river behind his house.

Although Waterloo Police Services and OPP worked vigorously for 5 days, nothing was found of where he could be.

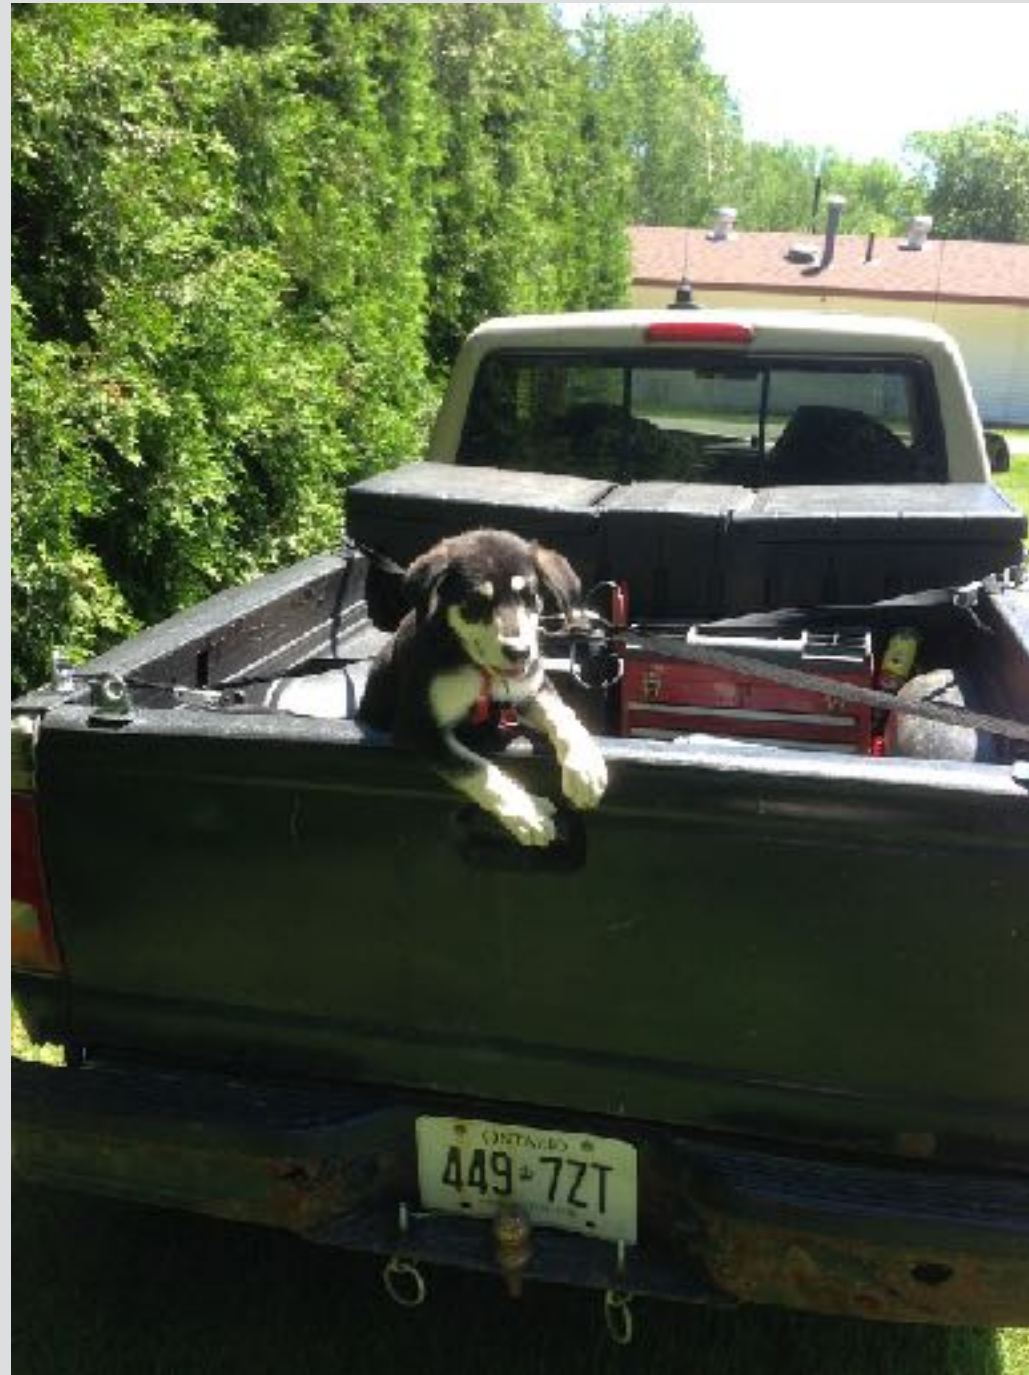

We started working with the police to see what could be done, but given we were just forming, there was little equipment available for us and so we started putting things together.

Where we started

Sheba was just a few months old

Where we started

Sam came out from Deep Trekker and helped with a unit searching areas As did ODG with Argo's

Where we started

The Ottawa Valley Canine section sent some dogs down to assist.

Where we started

The word then spread about the forming of a team and members soon started to apply.

Where we started

Training at New Hamburg Arena was one of our first formal training areas.

**No member of our group gets any tax break for their involvement.
It is solely done to help those in need.**

Where we started

Training at New Hamburg Arena was one of our first formal training areas.

Where we started

And what were they looking for?

Where we started

And what were they looking for?

Where we started

As we grew so did our equipment and Sponsors.

Where we started

So did Sheba

Where we started

Canine Training started to take effect and we started working with the North West Pennsylvania Canine group from Erie.

Where we started

It did not take long before we started forming a bond beyond Search and Rescue. Bill attended his first hockey match EVER in Erie

Where we started

In 2017 we were asked to assist with a body recovery in Rice Lake. We asked LuAnn & Adam from Erie to bring Doogan to help.

Where we started

Unfortunately, Doogan Died the following year after retiring after only a few months.

Where we started

Sponsor grew as well. It soon became obvious, we were forming a group that was professional and worth supporting. Training was taking a true form as well.

Where we started

So where are we now?

- 2013-2016 We averaged 2 calls a year.

Where we started

So where are we now?

- 2013-2016 We averaged 2 calls a year.
- 2017 We had 11 calls

Where we started

So where are we now?

- 2013-2016 We averaged 2 calls a year.
- 2017 We had 11 calls
- 2018 We had 17 calls including over 3 calls we could not support due to distance etc.

Where we started

So where are we now?

- 2013-2016 We averaged 2 calls a year.
- 2017 We had 11 calls
- 2018 We had 17 calls with over 3 calls we could not support due to distance etc.
- Members:
We are currently just under 20 members, which we have capped at.

We are proud to be part of our communities and help those in need.

Where we started

We are proud to be part of our communities and help those in need.

We have assisted other groups as well with our aviation and DeepTrekker units. Including Sheba and Ground Penetrating Radar helping cold cases

Where we started

So where are we do we go from here?

- 2019 Projections:

Ground Searches

- Rescue Radar

This is used in disaster areas where buildings may have collapsed and people may be trapped

Where we started

So where are we do we go from here?

- 2019 Projections:

Mounted Unit:

- Carry on with scent training and further qualification.
- Cross training in other areas, canine, marine etc.

Where we started

So where are we do we go from here?

- 2019 Projections:

Mounted Unit:

- Carry on with scent training and further qualification.
- Cross training in other areas, canine, marine etc.

Canine Unit:

- Initial training of Whisky
- Continued education for Sheba with further Cadaver training.

Where we started

So where are we do we go from here?

- 2019 Projections:

Marine Unit:

- Working with both boats to understand further the Sonar equipment and the use of the marine in conjunction with the Ground team.
- Possible introduction of Water Cadaver for Sheba.

Where we started

So where are we do we go from here?

- 2019 Projections:

Marine Unit:

- Working with both boats to understand further the Sonar equipment and the use of the marine in conjunction with the Ground team.
- Possible introduction of Water Cadaver for Sheba.

Aviation Unit:

- To qualify as required with Transport Canada and the new regulations for UAV flying

Where we started

So where are we do we go from here?

- 2019 Projections:

Aviation Unit:

- Introduction of the new UAV donated by Heffner Toyota with thermal dual camera
